**Winter 2021**

**New volumes in 2020 and 2021**

The last year and a half have been difficult for everyone. The project has, like everything else, faced some disruption, but thankfully not too much.

In 2020 we had four new volumes come out, all mentioned in our last newsletter:

- Iamblichus, *On the Science of Mathematics*, tr. J. Dillon & J. O. Urmson, July 2020 – <https://www.bloomsbury.com/uk/iamblichus-on-the-general-science-of-mathematics-9781350127647/>
- Al-Farabi, *Syllogism: An Abridgement of Aristotle's Prior Analytics*, tr. W. Hodges & S. Chatti, Sept 2020 – <https://www.bloomsbury.com/uk/al-farabi-syllogism-an-abridgement-of-aristotles-prior-analytics-9781350126992/>
- Alexander of Aphrodisias, *On Aristotle Topics 2*, tr. L. Castelli, Sept 2020 – <https://www.bloomsbury.com/uk/alexander-of-aphrodisias-on-aristotle-topics-2-9781350151284/>
- Themistius, *On Aristotle Metaphysics 12*, tr. Y. Mayrav, Nov 2020 – <https://www.bloomsbury.com/uk/themistius-on-aristotle-metaphysics-12-9781350127241/>

Early in 2021 we saw the publication of:

- 'Alexander of Aphrodisias', *On Aristotle Metaphysics 12*, tr. F. Miller, May 2021 – <https://www.bloomsbury.com/uk/alexander-on-aristotle-metaphysics-12-9781350179356/>

And in the last few weeks we are also pleased to see the publication of:

- Alexander of Aphrodisias, *On Aristotle Topics 3*, tr. L. Castelli, Nov 2021 – <https://www.bloomsbury.com/uk/alexander-of-aphrodisias-on-aristotle-topics-3-9781350214668/>

Coming up next in 2022 (currently in the very final stages of production) is the long-awaited final instalment of Simplicius on Aristotle's *Physics*, which completes the project's translation of all of Simplicius' commentaries. This will be issued in two volumes, the first containing a substantial monograph-length [Introduction](#) to the *Physics* commentary as a whole, and the second with the translation of [On Aristotle Physics 1.1-2](#), both by Stephen Menn.

After that we'll soon be working on the next instalment of Hermias, *On Plato Phaedrus*.
